Introduction to Cruising

Cruising has become one of the travel industry's fastest growing sectors, and it's not surprising, as cruises cover a wide range of destinations and offer notably great value for money.

Your basic cruise fare will include your flights (where applicable), transfers and on board accommodation, main meals and snacks, entertainment, on board lectures and seminars, social events and full use of the ship's facilities, including swimming pools and fitness centre.

You can be as active or as relaxed as you choose... after all, it's your holiday to spend exactly how you wish!

With a cruise holiday, the options are endless, from deciding which company and ship suit your requirements to the destinations you want to visit, and for those guests who don't wish to fly, you can choose to travel from a wide range of UK departure ports.

For some, just the thought of a cruise holiday can seem a little daunting, with so many choices and so much variety, so at ROL Cruise we are here to help. As the leading independent national cruise specialist, we are delighted to share our experience, knowledge and expertise to help find you a cruise holiday that suits you.

Read on for top reasons to cruise...

TOP REASONS TO TAKE A CRUISE

Cruising is all about choice, and all about you...

Value - Sailing away has never been more affordable. Your cruise package includes accommodation, meals on board, entertainment, activities and social functions, use of all ship facilities, plus flights and transfers where applicable. Extras include any optional spa treatments, on board purchases (such as bar, shops or casino), travel to and from the port (for UK departures), optional shore excursions and tours.

Convenience - Most cruise companies now sail from a range of ports in the UK so it's easy to travel to and from your joining port. If you choose to take a fly-cruise, the cruise line can arrange flights, baggage handling and transfers to and from the ship.

Choice (ships) - There are tens of thousands of cruises to choose from, and a wide variety of cruise companies and ships to suit all tastes and requirements, from the small, intimate ships carrying just a couple of hundred people to the larger ships that hold up to 6,000 passengers,

adults-only and family-friendly ships.

Choice (destinations) - See new places and unpack only once! Hotel-based holidays cannot compete in this area. On a cruise, your 'hotel' floats from place to place, allowing you to see many points of interest on a single trip, and the arranged excursions mean you can make the most of the destinations you visit and add to the experience. Just one cruise will leave you feeling like an experienced traveller.

Great food - Cruising is perhaps best known for the food, and with award-winning chefs and a selection of top restaurants on board, the food has a well-deserved reputation. From 'round-the-clock' buffets to elegant dining halls to speciality restaurants and a choice of fixed dining (often around 6.30pm or 8.30pm) or the more flexible anytime dining, your options are overwhelming.

Entertainment - Each cruise offers a programme of activities and

entertainment whilst you are on board. When you are not exploring ashore, during the day you can take part in activities, lectures, seminars and workshops, watch a film, read a book or simply relax! You also have full use of the ship's facilities, including fitness centre, swimming pools, deck games, sports and activities (which vary depending on the ship), and as the evenings draw in you can enjoy entertainment such as West End/Broadway-style shows, comedians of all kinds, game shows, music and dancing. Every night there is something to suit anyone's tastes. You'll get a daily newsletter delivered to your cabin, listing times and locations of every activity and show.

Enjoy exceptional service - Whilst on board you can expect a nightly turn-down service and chocolates on the pillow, a head waiter, assistant waiter, and possibly a wine sommelier, to attend to your every need at dinner,

and cruise staff will greet you and offer assistance for anything you may need. The staff on board are always delighted to help but are never intrusive. You can expect to be treated like royalty; after all, this is all part of the cruise experience.

Meet new people - Cruises are known for their traditional dinner dining schedule, meaning your party is assigned a table at a specific time every night. Unless your party takes up an entire table, you will be seated with other travellers. Many new friendships are formed in this way. Many cruise-goers find they enjoy the company of their fellow travellers, sharing stories and experiences. However do not worry if you are a more private person; some cruise lines have broken out of the traditional dining mould and allow parties of any size to dine privately at the time of their choosing – even tables for two are available.

The Cruising Dictionary

Cruising Misconceptions Clarified

There are a number of reasons people will look away from a cruise holiday, but we feel that a cruise can be the ideal choice of holiday... for everyone!

Cruising is not for me - A cruise holiday is tailored to suit all tastes and requirements: singles, families, couples and groups. Cruising is a great option for special occasions, weddings, honeymoons, birthdays, or just a quick getaway. Cruising can suit all ages and all occasions!

I might get seasick - Due to their immense size and the stabilisers that ships are equipped with, you probably will not notice any motion at all. Some parts of the ocean, however, are rougher than others. If you do get seasick, medications are available on board to get you back on your feet quickly. If you are concerned, choose a cabin towards the centre of the ship (midships), located lower down where the movement is minimal.

Cruise ships are too confining - On a cruise you can visit many ports, with the itineraries planned to spend most days ashore; you cruise

through the night, meaning you wake up somewhere different every day!

Cruises are expensive - Compared to land based holidays, a cruise is actually one of the best travel values out there. Even the lowest priced cruises include as standard: flights & transfers on fly-cruises, accommodation, meals, entertainment and activities, use of facilities such as gym, pools, hot tubs, children's areas, and much more.

I will be bored - A full programme of daytime and evening activities is available on board, from arranged quizzes, games and sports, to the use of the ship's facilities, pools and fitness centre. Specialist lectures and workshops cover a range of interests; visit the spa for a relaxing treatment; plus each port offers a variety of optional arranged excursions. Evening entertainment includes West End/Broadway-

style shows, guest entertainers, nightclubs, bars, lounges and casinos. Browse the shops or just sit back and take in the atmosphere!

It's too formal - Today's ships have few formal evenings in the dining room and these are optional. Many cruise lines now offer a more casual alternative, and there is always room service to enjoy in your cabin. If you are still not convinced, you can choose a cruise line with a more informal atmosphere. (More information over the next few pages.)

A cruise ship cabin is claustrophobic - An inside cabin does tend to be smaller and by definition lacks a window but, in reality, there is so much to see and do on board, you will spend very little time in your cabin (except to sleep). An outside cabin (ocean view) has a window or porthole, while a balcony (veranda) cabin has a glass door leading to a balcony, usually equipped with a small table and chairs. Most ships feature larger suites for those who truly need more space.

Everyone gains weight on a cruise - While cruises are known for having plenty of food available, cruise lines are very aware of the healthy-eating lifestyles of a growing number of cruisers. At every meal they offer

healthy choices as part of their already extensive food selections prepared under the direction of some of the greatest chefs in the world. Plus, there are plenty of activities on board and off to help you burn away any extra calories during your holiday!

I will have to be seated with people I don't know at dinner - Although ships have the traditional assigned seating, most now have the alternative option where you can dine 'where you wish, whenever you wish and with whom you wish'. Most ships also have a more casual dining option that offers a change from the fixed dining times, with a range of speciality dining options available for a more intimate experience.

Cruises are too long - Cruise lengths actually vary significantly to meet personal tastes, with itineraries ranging from 2 to 100+ nights!

You lose touch with the world on a cruise - While some people relish the thought of getting away from it all, there is always the possibility to stay in touch. Cruise ships publish a daily newsletter with major news, sports scores and stock quotes. Cabins have televisions and telephones enabling you to call your loved ones back at home. The ships also have computer facilities and Wi-Fi available, plus calls can be made from ports too.

Choosing your Cruise...

Find a specialist

As an independent cruise specialist, we are not tied to any one cruise line. So, when looking for your cruise holiday, contact ROL Cruise on **0808 102 3796**. You will enjoy impartial advice and premium service levels from our highly-trained cruise experts. We are here to offer advice and share our knowledge and experience to help you find the best cruise for you. We will talk you through the best ship for your requirements, the best choice of cabin and all the important information to point you in the right direction.

When and where?

Choose where you want to go and the destinations you want to visit. You may also wish to consider special themes such as Christmas cruises or special events such as the D-Day

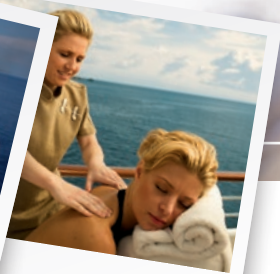

anniversary, Venice Carnival, Mardi Gras in New Orleans, Rio Carnival, Monaco Grand Prix or Chinese New Year. Cruising offers a range of opportunities to see the world.

How long for?

Decide how long you would like to be away for. If your embarkation port is not too close to home, allow for the extra journey time. Cruises range from short breaks of 2 nights to world cruises of 100+ nights and everything in between.

Choose the right ship

Would you prefer a smaller ship to cater for a couple of hundred guests or the larger ships carrying a few thousand? Would you prefer a ship with non-stop entertainment and activities or are informative talks and creative learning more your style? Are you planning a family getaway or would you like a break from the

children or grandchildren on an adults-only ship? Your choice of ship can be easily made once you decide on the cruise experience you would prefer.

Accommodations

Interior cabins have no windows and no views, so if your chosen itinerary sails through a lot of scenery, treat yourself to an ocean view cabin and take in the sights from your room. There is nothing better than relaxing on your balcony whilst sailing the Caribbean or Alaska's Inside Passage. If you are concerned about movement, opt for a midships located cabin and for longer cruises the extra space of the suites is often appreciated.

Dining

If you like the idea of the traditional fixed dinner seating, the later dining means you can make the most of

the time in port without rushing back to change for dinner, and you can choose a larger table to get the best of the experience. Those who like a little more flexibility can opt for the flexible anytime dining. Don't forget, your ship will offer alternative restaurants for you to dine in during your cruise.

Extra costs

There is already so much included in your cruise fare; however, it's worth budgeting for drinks (some lines include drinks or optional pre-paid drinks packages), optional shore excursions and any extras on board such as spa treatments, purchases from the shops or gaming in the casino.

When you have an idea of what you are looking for, call us on **0808 102 3796** and we will help you find the perfect cruise!
