## SPRING, SUMMER, AUTUMN

Turquoise fjords, emerald mountainsides, and frosted peaks – Norway’s landscapes are a stunning sight to behold in these months. The longer days invite exploration and local Norwegians spend these months leisurely reconnecting with nature; hiking, kayaking, birdwatching, and fishing. Come and join them.

Spring sees the coast awoken from its winter slumber, still offering a mixture of snow and sun. Summer is the realm of the Midnight Sun as 24-hour daylight reigns supreme. Come autumn, brush strokes of golden hues paint the coast which is drenched in the soft sunlight of the season.
