MS ROALD AMUNDSEN

MS Roald Amundsen will be a truly comfortable base camp at sea, and the stunning scenery will be reflected in a rich and stylish interior design. Scandinavian materials from nature, such as granite, oak, birch and wool will be used to create relaxed and well-designed cabins with views and welcoming public areas. On board recreation and dining will be top quality; with three swimming pools and fine Norwegian dining on offer. Best of all, MS Roald Amundsen is the first expedition ship ever to sail with electric hybrid technology. This will reduce fuel consumption approximately 20 percent and enable the ship to sail on 100% electric power for up to 30 minutes, allowing you to experience the wonder of Antarctica in near-total silence.

On board activity highlights:

Lecture programme, Young Explorer, Photography Workshop, Science Center, Morning Exercise.
